Products and Offerings

Custom Wedding Logo

We'll create a custom wedding logo just for your special day. We'll start with four logos for your first review, and then narrow them down and make tweaks until you have the perfect logo!

Save the Dates with Envelope Address Printing

No template designs here! Choose from three styles (listed below), and we'll go from there to create your unique Save the Dates. They'll feature your new wedding logo, your engagement pictures, your wedding date and any other information you want. Plus, we'll include envelopes with addresses already printed – saving you time!

Save the Date Styles

Double-sided postcard - 4.25" x 6" | Flat card - 5" x 7" or smaller | Magnet - 4" x 6" or smaller

Wedding Invitations with Envelope Address Printing

Choose between a pocket style or our classic flat panel card as the base of your invitation. (See below for these styles.) Then, we'll design your invitation suite, which includes a matted invitation, pre-addressed mailing envelope, RSVP card with pre-addressed envelope and three additional card inserts. These card inserts can be used to feature reception details, hotel accommodations, directions or more.

Want to add a custom map? We'll do that for only \$50 more. Invitations are sent to you already assembled – just place them in the mailing envelopes and add your postage.

Wedding Invitation Styles

All of the invitation styles below feature a 5" x 7" invitation, except for the square pocket which has a 6" x 6" invitation. Each style can be horizontal or vertical.

Looking to have assigned seats? We'll create a seating chart for you so the individual place cards can be arranged around each table. Seating charts start at \$100.

Thank You Cards with Envelope Printing

Gone are the days of store-bought thank you cards! Feature an engagement or wedding photo to make your thank you note more meaningful. Matching envelopes and address printing is also included with thank you cards. Standard thank you cards are 4.5" x 6" in horizontal or vertical orientation.

2. Determine Your Quantity Level

Our Wedding Brand pricing is based upon the number of invitations you need for your wedding. The number of invitations needed is often considerably less than your total number of guests. For example, inviting Mr. & Mrs. Johnson counts for two guests, but only one invitation. The easiest way to determine the number of invitations is to organize your guests and mailing addresses in a spreadsheet and then count the number of rows.

Once you've determined how many invitations you need, we recommend that you add 10-15 additional invitations. This way, you will have a few extras to save as keepsakes or send out to last-minute guests.

Total Package Pricing

The prices below are the total amount for each package at each invitation quantity level. We've simplified the pricing structure so that you know exactly how much your entire suite will cost upfront. No need to calculate price for invites, price for save the dates, etc - it's all included.
